TPT3101 Final Year Project (FYP1) Meeting Log
Trimester 1, 2022/23 (Trimester ID:2210)

Meeting Date: 28 Sep	**Meeting No.: 1**
Meeting Mode: Physical	
Project ID:	**Project Type:** **Research-based**
Project Title : Time Series Based Text Summarization	
Student ID : 1181203334	**Student Name: Mak Yen Wei**
Student Programme and Specialisation: Bachelor In Computer Science, Specialized in Data Science	
Supervisor Name: Dr Goh Hui Ngo .	**Co-Supervisor Name:** **(if applicable)**
Collaborating Company: **(if applicable)**	**Company Supervisor Name:** **(if applicable)**

1. WORK DONE
[Please write the details of the work done, after the last meeting]

Tasks: Problem Formulation and Project Planning / Background Study or Literature Review / Requirement Analysis or Theoretical Framework / ~~Design or Research Methodology~~ / ~~Prototype Development or Proof of Concept~~ / ~~Draft Report Completion~~

(Please strike out the tasks, which are not applicable)

Details (in point form):
- Narrowed down ideation of the project to FYP 1 and FYP 2.
- Discussed and came into a mutual consent of splitting the project into part 1 and 2.
- 5 papers related to string similarity and text summarization have been read.

2. WORK TO BE DONE
[Please write the details of the work to be done, before the next meeting]

Tasks: Problem Formulation and Project Planning / Background Study or Literature Review / Requirement Analysis or Theoretical Framework / ~~Design or Research Methodology~~ / ~~Prototype Development or Proof of Concept~~/ ~~Draft Report Completion~~

(Please strike out the tasks, which are not applicable)

Details (in point form):
- A slide needs to be done to convey the idea of the project.
- A scraper written in python needs to be build for data collection.
- Keywords searching needs to be done to narrow down scale of the project.
- A total of 250 post needs to be scrapped.

3. PROBLEMS ENCOUNTERED AND SOLUTIONS
[Please write the details of the problems encountered, after the last meeting and provide the solutions / plan for the solutions]

One of the problems met is the task of scraping 250 posts of stackoverflow on the internet, because of how secured and well thought out from the stackoverflow team, stack overflow bans your ip address once they detect if you're navigating their sites too quickly. To solve this issue, a certain time delay function is implemented and a proxy server to bypass the ban is implemented as well.

4. COMMENTS (Supervisor / Co-Supervisor / Company Supervisor)

The dataset has been collected from stackoverflow.
Need to prepare overall algorithmics framework.

Company Supervisor's Signature   **(if applicable) (if applicable)**

IMPORTANT NOTES TO STUDENTS:

1. Items 1 – 3 are to be completed by the students prior to the meeting. Item 4 is to be completed by the supervisor / co-supervisor / company supervisor.

2. Student has to upload the soft copies of the meeting logs in Google Classroom and also attach them along with interim (FYP1) report.
   Minimum requirement is SIX Meeting Logs (Period: Week 4 to Week 14). Students can have fortnightly meetings with the supervisor.

3. Log sheets provide the basis for evaluating the General Effort (Project Management, Attitude, and Technical Competency) of the student, by the supervisor and also for checking the attendance requirement of the student, by the FYP Committee.

   This also provide the student with feedback from the supervisor / co-supervisor / company supervisor on the tasks done and provide the plan for the upcoming tasks. This can provide the motivation for the student to give consistent and efficient effort throughout the period of FYP.

4. Student who fails to meet the minimum requirement (six nos.) of log sheets will not be allowed to submit FYP report.
